ASSESSMENT

21	<p>Body/Bodies which will carry out assessment: National Council for Vocational Training (NCVT)</p>
22	<p>How will RPL assessment be managed and who will carry it out?</p> <ol style="list-style-type: none"> 1. Only those candidates will be allowed to appear in the Test conducted by NCVT as Private candidate who have already acquired the National Trade Certificate. 2. Three (03) years experience of the candidates wishing to appear as Private candidate after obtaining NTC should be in the same trade in which he proposed to acquire the National Apprenticeship Certificate. 3. Only, the experience acquired by the candidate in an establishment implementing the Apprentices Act, 1961 should be considered and such certificate should be issued by the Officer In-charge of Training of that establishment. <p>Based on above Eligible candidates will appear in the AITT conducted by NCVT.</p>
23	<p>Describe the overall assessment strategy and specific arrangements which have been put in place to ensure that assessment is always valid, reliable and fair and show that these are in line with the requirements of the NSQF.</p> <p>(1) Assessment process: The assessment for the block-based qualification is carried out by conducting formative assessments, and final examinations. The internal assessments for theory subjects and practical are conducted by the concerned instructors for evaluating the knowledge and skill acquired by trainees and the behavioural transformation of the trainees. This internal assessment is primarily carried out by collecting evidence of competence gained by the trainees by evaluating them at work based on assessment criteria, asking questions and initiating formative discussions to assess understanding and by evaluating records and reports, and sectional marks are awarded to them. Theory is conducted in Trade theory, Workshop Calculation & Science, Engineering Drawing and Employability Skills along with practical examinations. The question papers for the theory Examinations contain objective type questions. Trade practical</p>

examinations are conducted by the local board constituted as the defined rule. However, the question papers for the Trade practical are prepared by NCVT.

The marking pattern and distribution of marks for the qualification are as per NCVT approved structure issued from time to time.

(2) Minimum pass marks:

The minimum pass percentage for Practical is 60% & minimum pass percentage for Theory subjects is 40%.

(3) Testing and certifications for the course:

- Online examination conducted for all theory papers.
- A panel of expert paper setters, who are graduates in the concerned field with minimum 5-7 years experience, is prepared for setting question papers for the Trade. The panel is vetted by the Member Secretary, NCVT.
- Paper setters are appointed from the panel after the approval of the competent authority for setting the question paper.
 - The question papers are then moderated by the Board of Moderation to see if the paper is set as per the requirement and syllabus.
 - An Examination Board consisting of representatives of industry/Employer/State Government are set up to supervise and monitor the conduct of Examinations at every Centre.
 - Theory and practical Examinations are carried out with invigilators/examiners with the overall supervision of the Examination Board.
 - Examiners called for evaluation of practical should have minimum technical qualification of a Diploma in the respective engineering field. However, when diploma holders not available, the qualification is suitably relaxed.
 - Examiners for practical Examinations are appointed preferably from Polytechnics/ Engineering colleges/ expert from establishment/ Government Departments or from retired qualified personnel possessing requisite qualifications and sufficient experience in the trade/discipline.

Testing centre located in ITI

Local board of examiners will be constituted in respect of every centre by the State Director in-charge of Training/State Apprenticeship Adviser in consultation with the State council for Vocational Training for conducting and evaluating the Trade test on the spot. The local Board of examiners will consist of the following:

- State Director in-charge of Training/State Apprenticeship Adviser (Secretary, State council for Vocational Training) or his nominees

(who must be a duly qualified technical person) as Chairman.

- Suitable Experts from various industries/Institutions depending on the trades in which Test will be conducted at the Centre.

Testing centre located in the establishment coming under the purview of State Governments

Local board of examiners will be constituted in respect of every centre by the State Director in-charge of Training/State Apprenticeship Adviser in consultation with the State council for Vocational Training for conducting and evaluating the Trade test on the spot. The local Board of examiners will consist of the following:

- State Director in-charge of Training/State Apprenticeship Adviser (Secretary, State council for Vocational Training) or his nominees (who must be a duly qualified technical person) as Chairman.
- Suitable Experts from various industries/Institutions depending on the trades in which Test will be conducted at the Centre.

Testing centre located in the establishment coming under the purview of Central Governments

Local board of examiners will be constituted in respect of every centre by the Regional Directors (RDAT) in consultation for conducting and evaluating the Trade test on the spot. The local Board of examiners will consist of the following:

- Chairman appointed by the employer in whose establishment Trade Testing Centre is located
- Suitable Experts from various industries/Institutions depending on the trades in which Test will be conducted at the Centre.
- Flying squads from State Governments as well as the Central Government are constituted to check malpractices during the conduct of Examinations.
- Evaluation of every practical examination is carried out by the concerned examiner (from industry/ polytechnics) with the overall supervision of the Examination Board in a free and fair manner as per the assessment criteria.
- The marks compiled by the Regional Directors/State Apprenticeship Advisers as per NCVT guidelines and the results were declared by the State Governments and RDATs
- The successful trainees are awarded National Apprenticeship Certificates.

Overall assessment strategy:

Assessment of the qualification evaluates trainees to show that they can integrate knowledge, skills and values for carrying out relevant tasks as per the defined assessable outcomes and assessment criteria. The trainees may choose the preferred language for assessment. The underlying principle of assessment is fairness and transparency. While assessing the trainee, assessor is directed to assess as per the defined assessment criteria against the assessable outcomes. The evidence of the competence acquired by the trainees can be obtained by conducting theory and practical examinations, observing the trainees at work, asking questions and initiating formative discussions to assess understanding and evaluating records and reports. The ultimate objective of the assessment is to assess the candidates as per the defined assessment criteria for the assessable/ learning outcomes.

Specific Arrangements for assessment:

- Assessment is outcome-based.
- There are formative and summative assessments in Theory and Practical.
- Assessment is carried out in Trade theory, Trade Practical, Workshop Calculation and Science, Engineering Drawing and Employability Skills.
- While Trade Theory and Trade Practical are used for assessing Trade-related jobs, Workshop Calculation and Science is used to test trainee's numerical skills, Drawing is used to test the ability of the trainee to draw and read sketches and Employability skills is used to test the communication and language skills of the trainee.
- In addition to demonstration of theory and practical knowledge, trainees get a chance to present total personality.

Quality assurance activities:

- Question papers are set by external paper setters
- Evaluation of Theory Examinations is done online.
- Trade Practical is examined by External Examiner (as explained above).

	1.14 Avoid waste and dispose waste as per procedure.
	1.15 Recognize different components of 5S and apply the same in the working environment.
2. Select and ascertain measuring instrument and measure dimension of components and record data.	2.1 Select appropriate measuring instruments such as micrometers, vernier calipers, dial gauge, bevel protector and height gauge (as per tool list).
	2.2 Ascertain the functionality & correctness of the instrument.
	2.3 Measure dimension of the components & record data to analyse with the given drawing/measurement.
3. Explain the concept in productivity, quality tools, and labour welfare legislation and apply such in day-to-day work to improve productivity & quality.	3.1 Explain the concept of productivity and quality tools and apply during execution of job.
	3.2 Understand the basic concept of labour welfare legislation and adhere to responsibilities and remain sensitive towards such laws.
	3.3 Knows benefits guaranteed under various acts.
4. Explain energy conservation, global warming, pollution and contribute in day-to-day work by optimally using available resources.	4.1 Explain the concept of energy conservation, global warming, pollution and utilize the available resources optimally & remain sensitive to avoid environment pollution.
	4.2 Dispose waste following standard procedure.
5. Explain personnel finance, entrepreneurship and manage/ organize related task in day-to-day work for personal & societal growth.	5.1 Explain personnel finance and entrepreneurship.
	5.2 Explain role of various schemes and institutes for self-employment i.e. DIC, SIDA, SISI, NSIC, SIDO, Idea for financing/ non-financing support agencies to familiarize with the policies/ programmes, procedure & the available scheme.
	5.3 Prepare Project report to become an entrepreneur for submission to financial institutions.
6. Plan and organize the work related to the occupation.	6.1 Use documents, drawings and recognize hazards in the work site.
	6.2 Plan workplace/ assembly location with due

	consideration to operational stipulation.
	6.3 Communicate effectively with others and plan project tasks.
	6.4 Assign roles and responsibilities of the co-trainees for execution of the task effectively and monitor the same.

Specific Assessable Outcome:

SPECIFIC OUTCOME
Block-I (Section:10 in the competency based curriculum)
<p><i>Assessment Criteria i.e. the standard of performance, for each specific learning outcome mentioned under block – I (section: 10) must ensure that the trainee achieves well developed skill with clear choice of procedure in familiar context. Assessment criteria should broadly cover the aspect of Planning (Identify, ascertain, estimate etc.); Execution (perform, illustration, demonstration etc. by applying 1) a range of cognitive and practical skills required to accomplish tasks and solve problems by selecting and applying basic methods, tools, materials and information 2) Knowledge of facts, principles, processes, and general concepts, in a field of work or study 3) Desired Mathematical Skills and some skill of collecting and organizing information, communication) and Checking/ Testing to ensure functionality during the assessment of each outcome. The assessments parameters must also ascertain that the candidate is responsible for own work and learning and some responsibility for other's work and learning.</i></p>

Means of assessment 1

Assessment will be evidence based comprising the following:

- Job carried out in labs/workshop
- Record book/ daily diary
- Answer sheet of assessment
- Viva-voce
- Progress chart
- Attendance and punctuality
- Assignment
- Project work

Means of assessment 2

Add boxes as required.

Pass/Fail

The minimum pass percentage is 40% for each Theory Examination and 60% marks for each Trade practical Examination.
