Exercises for the Participants

Objective: To make participants assimilate the concepts taught and demonstrate the learning.

Time and Task: About 2 hours can be spent on first explaining the concept of value along with its elements and then perform the exercise. If the participants are literate trainer can ask them to write down points on papers. If the participants are dominantly illiterate then trainer can help them by writing down the points shared on board.

Creating Value Table

Table-1: Value: {(benefits + Returns) – (Costs + Risks)}

All the elements given of value are to be defined from consumer's perspective. Benefits that the customers will receive because of the craftsperson's work. Returns, i.e., long term benefits that customers will receive. Costs are the payments (monetary and non-monetary) incurred by customers in availing the service or purchasing the product made by craftsperson. Risks to be avoided by customers by purchasing the product or service given by the concerned craftsperson. Overall customer's perspective is to be talked about in this exercise.

Benefits	Returns	-	Costs	Risks
- Functional	- Rent		- Monetary (Acquisition; Possession; Usage)	- Financial
- Emotional (bonding)	- Income			- Time
- Social (Recognition)			- Time & Energy	- Psychological
- Experiential (Design; Service; Brand)			- Psychological	

Each craftsperson should be able to learn the importance of communicating the value that his / her profession offers to the customers. Generally, it is observed that craftsmen have some idea about the value they contribute, but is not clearly articulated. The aim of this exercise is to make the knowledge of craftsperson explicit in terms of their value contributions. Table-1 is a generic descriptive table which explains the sub-components of the elements of value. This is for trainer's understanding. It is expected that the trainer would use the given tables customized for the concerned crafts. This is to make the craftsperson come up with the value they are creating for the customers.

Boat Maker

The following points are only indicators for the trainer. S/he is expected to make the participants speak and bring out as many points as possible.
