EVIDENCE OF NEED

26	What is the estimated uptake of this qualification and what is the basis of this estimate?	What evidence is there that the qualification is needed?	In case of other Awarding Bodies (Institutes under Central Ministries and states departments)
	<p>(Refer to E&Y Skill gap analysis attached -page 24)</p> <p>All schools require an Early Years Physical Activity Facilitator. There is a dire need for teachers in the pre-primary and primary segment. Most graduates of Physical education are not skilled to handle young children. There is enough research to show that Physical activity is an essential part of holistic education and that needs to begin at pre-school. This job role is focused towards this segment. All primary schools, private and government, will be primary employers. This number starts at a minimum of 100,000.</p>	<p>While collecting data from the companies for the occupational map & functional analysis, we also took feedback from industry, which was collected with respect to roles for which qualification packs development, was to be prioritized. This was largely based on the volume of people required, a quantitative and qualitative shortfall which the Industry feels they face. Governing council of SPEFL SC gave final approval and endorsement for the same.</p>	N/A
	<p>Industry Relevance</p>	<p>The SSC would undertake validation of the job roles with actual end-user industry where such employment is going to be generated and absorbed instead of generic validation of industry. The SSC would submit the endorsements from users/intended users of the qualification clearly supporting or otherwise the need for trained people against specific job role. (<i>The industry validation format to be used</i>)</p>	<p>The Submitting Body would submit the list of industry participation while preparation of the curriculum/ course content of the qualifications. These could include minutes of the meeting/ reports of these consultations</p>

NSQF QUALIFICATION FILE

<p>Usage of the qualification</p>	<p>The SSC would submit details of the employment generated (wherever applicable) and realise</p>	<p>The submitting body would submit the details of trained and placed data in the</p>
	<p>by virtue of training in the Qualifications of the sector earlier submitted for NSQF alignment.</p> <p>In case of unorganized sector, case studies or evidence may be given</p>	<p>proposed qualification (if an existing qualification is being proposed for NSQF alignment)</p> <p>Information about the success of the qualification should be given (e.g. uptake figures, examples of use in recruitment and placement rates (if known) should be given. However, many of the bodies that do not have placement tracking mechanism established in place would provide necessary endorsements by the state/ ministry stating that a tracking mechanism would be institutionalized and placement records shall be provided annually or later, depending on the length of qualification.</p>

NSQF QUALIFICATION FILE

	<p>Estimated uptake</p>	<p>The SSC would submit The Submitting Body the estimated uptake of and should submit the qualification and What estimated uptake by steps were carried out to reflecting the number test the likely uptake of the takers for this the qualification? The basis of this estimate qualification for at least should include data about two years from the number of jobs or submission of the places in courses of qualification learning which will be available to people who are awarded the qualification.</p>
<p>27</p>	<p>Recommendation from the concerned Line Ministry of the Government/Regulatory Body. To be supported by documentary evidence- had been through NQR refer to annexure-B MoM MHRD</p>	
<p>28</p>	<p>What steps were taken to ensure that the qualification(s) does (do) not duplicate already existing or planned qualifications in the NSQF? Give justification for presenting a duplicate qualification There are very few QPs available in this sports sector. This QP of Early Years Physical Activity Facilitator is unique and is not overlapping with any other available QP. This acts as a prerequisite to other job roles and seamlessly has a progression to available job roles in level 4 and above.</p>	
<p>29</p>	<p>What arrangements are in place to monitor and review the qualification(s)? What data will be used and at what point will the qualification(s) be revised or updated? Specify the review process here. The qualification largely deals with the technicalities of running a sports program in a structured environment like school. The revisions will most likely be depending on the change in the school curriculum or change in the rules and codes of sports being followed. A review may be made at a gap of two years.</p>
