Contribute to Achieving Product Quality in Buffing Operations (LSS/N0803)	Mandatory	2	30	4
Maintain Work Area, Tools and Machines (LSS/N8501)	Mandatory	3	20	4
Maintain Health, Safety and Security at Workplace (LSS/N8601)	Mandatory	10	24	4
Comply with Industry, Regulatory and Organizational Requirements (LSS/N8701)	Mandatory	1	2	4
Total		30	170	

ASSESSMENT

Name of Assessment Agency (AA):

If there will be more than one Assessment Agency (AA) for this qualification, give details.

- Aspiring Minds Assessments Private Limited
- Induslynk Training Services Pvt. Ltd. (Mercer - Mettl)
- SP Institute of Workforce Development Pvt Ltd
- Trendsetters Skill Assessors Pvt. Ltd.

The list of Assessment Agencies is not limited to above and can extend basis their empanelment with SCPwD and having certified Assessor for the Job role from Domain SSC as well as SCPwD.

ASSESSMENT PROCESS

NOTE: SCPwD adopts the Criteria of the Domain SSC and Assessment is conducted by the AA's which are approved by the Domain SSC as well as empaneled with SCPwD. SCPwD develops Assessment guidelines for Persons with Blindness, Low vision, Speech and Hearing Impairment and **Locomotor Disability** to assist the assessors during assessment of the candidate. SCPwD conducts Training of Assessors (ToA) and provide them Disability Orientation and Sensitization.

Process followed by SCPwD for assessments:

Being a Horizontal Council, the prerequisites to the assessment process shared by the Domain SSC is followed mandatorily by the Assessment Agencies. Additionally, they must also follow the guidelines of SCPwD. Below is the assessment process in brief:

Pre-Assessment Phase-

1. Batch allocated to the Assessment Agency by SCPwD through Portal/ Email.
2. Assessment Agency to connect with Training Provider and communicate/confirm the date of assessment through email.
3. Assessment Agency to share requisite lab infrastructure & checklist with TP and discuss about the availability through email.
4. Assessment Agency aligns the Assessor for the assessment (Assessor should be Dual Certified by the Domain SSC as well as SCPwD, and the certification should be valid).
5. Prepare the Assessment link, formats and share with the Assessor over an email.
6. Share the Assessment demo link with the Training Partner over an email.

Assessment Phase-

1. The Assessor verifies the identity and disability through Aadhar Card and Disability Certificate and reports to SCPwD in-case of any discrepancy [*In case of J&K and NE Voter ID & Pan Card also allowed for Candidates Identification*].
2. The candidates are briefed on the assessment process (Prior to starting of the assessment).
3. The Assessor verifies the lab equipment's and reports to SCPwD in-case of any variance.
4. Post validation of photo Id proof for each candidate, attendance of candidate is captured according to the scheme's requirement. i.e., under PMKVY, attendance of the candidates is captured through Aadhar Enabled Assessor Application, however, under other schemes candidates sign the attendance sheet.

5. The candidates attempt the assessment on TAB/Computer System.
6. The Assessor takes the photos and videos of respective activities and complete the documentation formalities.

Post Assessment Phase-

1. The Assessment Agency prepares the result based on responses captured in server.
2. The Assessment Agency shares the result with SCPwD in the prescribed format.

SECTION 2

EVIDENCE OF NEED

What evidence is there that the qualification is needed?

The Job role has been shortlisted and mapped with Persons with **Locomotor Disability**, based on demand by the Industry, Training Partners, Experts and views from the reverent Persons with Locomotor Disability themselves.

What is the estimated uptake of this qualification and what is the basis of this estimate?

The Leather industry in India accounts for around 12.9% of the world's leather production of hides/skins and handles a robust annual production of about 3 bn sq. ft. of leather. The country accounts for 9% of the world's footwear production. The industry is known for its consistency in high export earnings and it is among the top ten foreign exchange earners for the country. India has an abundance of raw materials with access to 20% of world's cattle and buffalo and 11% of the world's goat and sheep population

India is the second largest producer of leather garments, next to China. Leather garments form a significant segment of the industry in India. Leather garments manufacturing capacity is estimated to be 16 million pieces per annum. India produces diverse types of leather garments i.e., jackets, long coats, waist coats/shirts, pant/shorts, motorbike jackets, industrial leather garments, leather aprons etc.

India's ranking as the third-largest global supplier of leather garments is only going to strengthen given the availability of quality raw material coupled with skilled craftsmanship. Major brands, such as Armani, Zenga, Abercrombie & Fitch, Marco Polo, Mango, Colehaan, Andrew Maarc and Guess source leather garments from India.

The Leather industry is an employment intensive industry providing job to more than 4 million people, mostly from the weaker sections of the society. Women employment is predominant in Leather products industry with about 30% share. The Leather industry in India has one of the youngest workforces with 55% of the workforce below 35 years of age. Keeping this in view, there is scope for Persons with disability also to enter the market. The Job roles from this sector have been identified based on the recommendation from the Leather SSC.

The sector currently employs over 3.09 million employees and is slated to employ more than 6.8 million employees by 2022. This implies additional creation of ~3.7 million jobs in the nine-year period. The period 2017–22 will see a marginally higher growth in employment vis-a-vis 2013–17 with the industry not expected to witness significant changes in operations through automation resulting in consistent employment elasticity factors over the next nine-year period.

The repetitive nature of work, low entry criteria for skilling in a job role from the sector, a person with no formal

NSQF QUALIFICATION FILE

Approved in 10th NCVET-NSQC meeting, dated: 29th July, 2021

education background may also be able to take up skilling. With the use of assistive devices, technology and simple adaptations Persons with Disability may be able to work at par with others and contribute to the growing economy of the nation.

What steps were taken to ensure that the qualification(s) does/do not duplicate already existing or planned qualifications in the NSQF?

Non duplication has been ensured by the Domain SSC.

What arrangements are in place to monitor and review the qualification(s)? What data will be used and at what point will the qualification(s) be revised or updated?

The Qualification Pack for Buffing Operator (Finished Leather) was adopted based on the industry demand for Persons with Disability. SCPwD develops disability specific Expository which contains expounded information on tools/technology /assistive devise for specific disability. The QP is revised at frequent intervals by Domain SSC, to capture updates in the sector. Similarly, Expository is also reviewed and revised to capture updates on any further development /innovations in the specific disability for facilitating the trainers as well as the assessors in addition to the learners. It may be noted that as and when the Domain SSC revises the QP corresponding adoption and updating is done by SCPwD in the related Job Role.

Annexure 2: Guidelines for the assessment of Persons with Locomotor Disability

Common guidelines for assessment of Trainees from all the categories of Disability

- Validate the type of Disability of the candidate along with the original Disability Certificate (Please note: In PMKVY, the batch should not have the candidates with Multiple Disabilities and the Disability type should be same as provided in SDMS).
- Do ask questions openly. Do not assume anything. For example, ask your trainees with disability if they need any change in the kind of assessment setup provided.
- Be prepared to make your assessments person-specific including the practical part too without compromising on the criteria set up by the Domain SSC.
- Provide the candidate with the desired assistive devices which may vary from candidate to candidate.
- Do understand that every trainee with disability has a journey. He/she are likely to have identified solutions that best work for him/her. Do not expect your trainees with disability to go through the same processes with the same rigour as your trainees without disability.
- Remember that your trainees with disability are going to work with persons without disability. Pitying, belittling or lowering the standards would defeat the purpose.
- An extension of 20 minutes per hour is recommended. This can be further increased as per circumstances/ requirement of the candidate (for details please refer to the Examination Guideline developed by MSJE).
- Services of scribe/ writer/ reader/ lab assistant should be allowed to any person who has Disability of 40% or more if so desired by the person.
- General comfort of the candidate should be kept in view inside the assessment room.
- Follow the health/ safety guidelines if any issued by the authorities.

Specific Guidelines

- Do not hang onto or lean on a wheelchair. It is often considered to be part of the person's "body space."
- There may be a requirement of re-arrangement of equipment based on nature of disability for ease of access like placing tools on left-hand-side or right-hand-side.
- May require process changes based on the nature of the assessment – for example, use of feet by an individual for different tasks having restricted mobility in upper limbs.
- There may be a requirement of modified/one-handed keyboard or mouse, computer configured with Sticky Keys for ease of using keyboard shortcuts, computer compatibility with speech recognition software or camera-mouse.
- Allow a scribe when requested by the candidate.
- In assessments, some trainees may prefer using a laptop over a desktop due to movement constraints.
- Many persons with spinal cord injury are unable to sit for extended periods of time. This should be taken into account, and extra time should be allocated to the person for completion of the assessment. Reasonable accommodations will be recommended i.e. support of a scribe.

Annexure 3: Assistive Tools, Trainer Pre-requisites

List of tools/equipment to conduct the training

Any of the following tools may be used during the training of Persons with Locomotor Disability

- Computer
- Sticky Keys
- Foot Pedals
- Access Switches
- Wheel Chair
- Walker
- One-Handed Keyboard
- Pencil Gripper
- Automatic Page Turner
- Grab Bars
- Speech to Text software

Trainer Qualification

Minimum Educational Qualifications: 10th with 18 months certificate course in Finished Leather (any) and above. In addition to Domain SSC (as above) Disability specific additional requirement for the trainer.

Disability Specific Top Up Module- The Inclusive Trainer should be certified by SCPwD with minimum qualifying score of 80% as per SCPwD guidelines in Disability Specific Top Up Training / QP of Trainer-PwD.
