EVIDENCE OF NEED

What evidence is there that the qualification is needed?

The Job role has been shortlisted and mapped for with **Speech and Hearing Impairment** based on demand from the Industry, Training Partners, Experts and views from the reverent Persons with Speech and Hearing Impairment themselves.

What is the estimated uptake of this qualification and what is the basis of this estimate?

The Beauty and Wellness sector is growing at a fast pace and is an important industry in India. It contributes a lot to the country's economic growth and is gradually becoming a leading employer —The reason for this exponential growth is rising consumerism, globalization and changing lifestyles of Indian consumers.

The rapid growth of the Beauty and Wellness Industry, along with the entry of many small and large companies, has led to a huge demand for trained personnel or beauty therapists. Though the Beauty and Wellness Industry is new in India, there has been an increasing awareness about health and well-being. The industry is booming and it is mainly due to the growing desire among both men and women to look stylish and feel good about themselves.

Though the training under various schemes has been around 2% so far, keeping in view the expansion of the Sector, employment opportunities for the PwD seem to be promising. Most of the job roles have the scope of self-employment as well as entrepreneurship, in addition to the mainstream opportunities. With appropriate guidance and training, PwD can have their own business enterprise.

The success rate of the PwD working in the Spa's has been tremendous and more and more employers are coming forward to hire PwD owing to their learning potential and skills.

What steps were taken to ensure that the qualification(s) does/do not duplicate already existing or planned qualifications in the NSQF?

Non duplication has been ensured by the Domain SSC.

Annexure 2: Guidelines for the assessment of Persons with Speech and Hearing Impairment

Common guidelines for assessment of Trainees from all the categories of Disability

- Validate the type of Disability of the candidate along with the original Disability Certificate (Please note: In PMKVY, the batch should not have the candidates with Multiple Disabilities and the Disability type should be same as provided in SDMS).
- Do ask questions openly. Do not assume anything. For example, ask your trainees with disability if they need any change in the kind of assessment setup provided.
- Be prepared to make your assessments person-specific including the practical part too without compromising on the criteria set up by the Domain SSC.
- Provide the candidate with the desired assistive devices which may vary from candidate to candidate.
- Do understand that every trainee with disability has a journey: he/she are likely to have identified solutions that best work for him/her. Do not expect your trainees with disability to go through the same processes with the same rigour as your trainees without disability.
- Remember that your trainees with disability are going to work with persons without disability. Pitying, belittling or lowering the standards would defeat the purpose.
- An extension of 20 minutes per hour is recommended. This can be further increased as per circumstances/ requirement of the candidate (for details please refer to the Examination Guideline developed by MSJE).
- Services of scribe/ writer/ reader/ lab assistant should be allowed to any person who has Disability of 40% or more if so desired by the person.
- General comfort of the candidate should be kept in view inside the assessment room.
- Follow the health/ safety guidelines if any issued by the authorities.

Specific Guidelines

- Do not shout at a Person with Hearing Impairment unless they request you to. Just speak in a normal tone but make sure your lips are visible.
- Keep conversations clear and try minimizing unnecessary noise in the background.
- If you are asked to repeat yourself, answering “nothing, it’s not important” implies that the person is not worth repeating yourself. It is demeaning; be patient and comply.
- Show consideration by facing the light source and keeping things (such as your hands) away from your mouth while speaking.
- Look directly at and speak directly to the person rather than looking at the interpreter or any other person who may accompany the individual.
- Follow the person’s cues to find out if they prefer sign language, gesturing, writing or speaking.
