

Industry Validation Format**Name of the Qualification:** Amin Survey**Qualification Code:** STC-CON/NSQF-2017/801**Level:** 3**Occupation to which the qualification gives access to:**

Assistant / Junior Land Surveyor

1. Validation for need of qualifications***Is there a need for this qualification in the market / sector/ industry?***

Yes / No

If No, Why?

Yes, there is a need for this qualification in the Sector.

West Bengal has the highest density of population in the country. This brings down the per capita availability of land. As a result this necessitates dividing of land in small plots among the local population. This need is further aggravated due to fast paced urbanisation within the state. Therefore this surges the demand of skilled Amin surveyors. Hence this qualification is of extreme relevance with the perspective of the state.

Will you recruit or recommend a person certified on this qualification?

Yes / No

If No, Why?

Amin Surveyors are normally self-employed. They are engaged by land owners, Land developers in rural, semi urban and urban areas for demarcation/ partition/ Plotting of lands of various characters. However, if need arises, a certified person on this qualification may be recommended subject to meeting other eligibility criteria viz. Health, Age, Sex, Antecedent, Domicile, Proficiency in local language etc.

2. Validation of the level of qualification***Do you think the outcomes of the qualification matches to the proposed NSQF level?******(Please refer to level descriptor in the NSQF gazette notification)****If not, then what level do you recommend for the qualification and why?*

Outcome of the qualification, as derived, in respect of each of the NSQF level descriptors (viz. Process, Professional Knowledge, Professional Skill, Core Skill & Responsibility) matches with level-3 . Thus the qualification matches to NSQF level-3 as proposed.
